

Your world.

Where the Bush Lessons Guy lives.

For your approval. Two options for every pillar, A and B. You choose.

Prepared by Marimba Studios | 28 October 2026

WHAT YOU ARE LOOKING AT

The character is locked.
Now we show you where he lives.

You have already approved the character and the six pillar images. This pack adds the missing piece: the world around him. The same man, the same clothes, placed into six bushveld places that match your pillars.

We made two versions of every pillar so that you can see a real choice.

Option A Wide. The whole man in the whole place. The world is the hero.

Option B Close. A larger character in warm golden-hour light. He is the hero.

HOW TO ANSWER

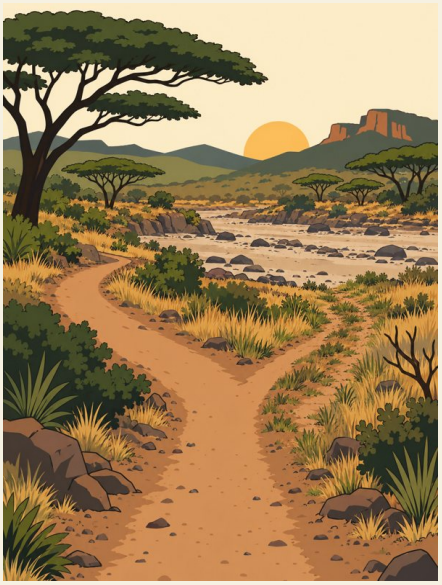

- Look at each pillar page. Tick A, B, or neither.
- If neither, tell us what to change, in your own words. A voice note is fine.
- The last page collects your six answers in one place.

Nothing moves until you say yes. These are still pictures. Once you choose, we make one short test clip from your pick and show it to you before anything is posted.
